I want to express how very grateful I am for all efforts the mayor and his staff made in getting a grant for the Lynden Hop. **This service has been a true blessing for me and other seniors especially.**

time

Since I had to stop driving the first of this year it has been a burden to always rely on family or friends for transportation. **The Lynden Hop has given me my independence back.** I can now schedule a ride for doctor's visits, trips to the Lynden Senior Center, or brief shopping trips.

It is such a joy to know I can get around town whenever I need to do so. I am certain there are many other seniors who use and very much appreciate this opportunity.

My grandson has even taken the Hop to football practice. The Hop is a wonderful for all of us to use for any trips around Lynden.

I sincerely hope that this one-year trial period extends to permanent access to the Lynden Hop.
